

You are looking for new communication possibilities for your decoration or advertising?

GFLX210 is a new lamination that confers **high quality protection** to your indoor and outdoor **floor decorations**

Kiosks, stores, shopping centres, museums, offices, hotels, car parks, staircases, sidewalks, public transportation...

Product characteristics

Grainy floor lamination

- Monomeric, calendered PVC
- Permanent solvent-based acrylic adhesive
- Compatible with printings below:

- **210 µ** thickness
- **R11** anti-slip classification (according to the DIN 51 130 standard)
- **Indoor & outdoor** installation
- Durability: **3 months** (outdoor) / **1 year** (indoor)
- Available in 1370 mm x 30 m

Product benefits

Textured, it has **significant R11 level anti-skid structure** and can be used both on outdoor and indoor surfaces.

GFLX210 will offer you **additional safety** against slipping risks without changing the appearance of your printing.

HEXIS +

This lamination delays the fading of the colours of your printing.

Available with reinforced adhesive: GFLXR210

Please note: GFLX210 is replacing GSOL170
