

GFLi130

New INTERIOR FLOOR laminate [R10]

Looking to protect your interior floor markings?

*The **GFLi130** anti-slip laminate is for you!*

By applying the **GFLi130** laminate, you will increase the **durability** of graphic designs applied to interior flooring.

GFLi130 is adapted to high-traffic flooring, from stores to shopping centres, museums, hotels and offices ... It can be applied on flat, sloping, and staircase surfaces.

It is also recommended for use on displays.

Product characteristics

Grainy floor laminate

- Monomeric, calendered PVC
- Permanent solvent-based acrylic adhesive
- Compatible with the following inks:
 - ECO-S
 - SOLV
 - LATEX
- **130 µ** thickness
- **R10** anti-slip classification (according to DIN 51 130 standard)
- **Indoor** installation
- Durability: **2 years** (vertical exposure) / **up to 3 months** (horizontal exposure on floors)
- Available in 1370 mm x 30 m

Product benefits

Give your visual designs a longer lifespan, without modifying their look!

GFLi130 is designed to **protect interior floor markings over the medium term**, making them more resistant to repeated circulation of carts and heavy traffic...

Thanks to its **R10 level anti-slip structure**, it will provide you with **optimal safety** against slips and falls.

The HEXIS +

This laminate slows colour fading and prevents reflections on the ground.

Please note: GFLi130 is replacing PSPOP (in 1370 mm width)
