

GFLiR170

New INDOOR FLOOR laminate, reinforced adhesive [R9]

Need to protect your promotional graphics, a printed decoration or an indoor floor signage?

*The **GFLiR170** anti-slip laminate is just for you!*

Use this new laminate to increase the **durability** of your floor graphics in all high-traffic areas: entrance halls, lobbies, shopping centres and shops, hotels, restaurants, museums, offices...

Product characteristics

Grainy floor laminate with **reinforced** adhesive

- Monomeric, calendered PVC
- Permanent solvent-based acrylic adhesive
- **170 µm** thickness
- Compatible with films printed with the following inks:

- **R9** anti-slip classification (according to DIN 51 130 standard)
- **Indoor** installation
- Durability: **1 year**
- Available in 1370 mm x 30 m

Product benefits

With its **anti-slip R9** classification, the **GFLiR170** is designed for **short-term protection of your indoor floor graphics** in high-traffic areas. It ensures **optimum security** against the risk of slipping or falling.

Its **reinforced adhesive** ensures a perfect fit to the distinctive relief of **UV curing inks**.

The HEXIS +

This laminate protects the colours of your graphics from deterioration. Its structured surface reduces glare on the floor surface.
