

DECORATIVE AND OUTDOOR DURABLE PRINTABLE METALIZED VINYL

Coated with a permanent pressure sensitive acrylic adhesive, RTape metalized VinylEfx® films exhibit good adhesion to a wide variety of sign substrates. User should determine the suitability of the film prior to use in production. VinylEfx® films are hot-embossed to produce deeper and more defined patterns. Their realistic and distinctive eye-catching appearance duplicates the look of metallic finishes. RTape's decorative series metalized films provide long-term indoor use as well limited outdoor durability. All VinylEfx® films are printable using screen print, digital print and offset inks formulated for pressure sensitive vinyl films.
