

## Product Information

Adhesive PVC film with matt and reflective free surface. Suitable for lettering and spray-mask film for sign-writing on vehicles, board design and exhibition displays.

Lettering on flexible, flat and lightly structured surfaces.

Especially to be emphasised are the following properties:

- Removable, easy peel adhesive with excellent resistance to solvents and PVC plasticizers.
- High final tack even on rough and structured surfaces.
- Ideal flatness under application conditions.
- Stabilized PVC film with high resistance to solvents giving sharply defined edges and no wrinkling.
- Ideal for flatbed plotters.

## Technical Data

<b>Carrier:</b>	PVC film, grey, translucent	
<b>Adhesive:</b>	Acrylic	
<b>Liner:</b>	Silicon paper, white (140g/m <sup>2</sup> )	
<b>Adhesion [N/cm]:</b>	1,50	+/- 10 %
<b>Thickness [mm]:</b>	0,09	+/- 5 %

## Standard Dimensions

1.220 mm x 50 m

1.000 mm x 50 m
