PROTECTION FOR THE FUTURE

BODYFENCE

PAINT PROTECTION FILM

HEXIS

SELF-ADHESIVE FILM MANUFACTURER FOR OVER 25 YEARS

We are delighted to be launching a new generation car body protection film.

The new BodyFence range has been developed by HEXIS R&D based on cutting-edge technology and will protect your vehicle against external aggressions:

- Scratches
- Stone chips
- Abrasion
- UV rays

In addition, the film facilitates cleaning by preventing dirt from adhering to the paint. It will keep your vehicle...

...Forever Young!

BODYFENCE

PAINT PROTECTION FILM

The BODYFENCE Plus

SELF-HEALING

Should your paint become scratched, the BodyFence protective film will regenerate with the help of heat from the sun or hot water. Scratches appear on the car body when using automatic mechanical car wash brushes, when rubbing against bushes on road sides, during everyday use or due to an act of vandalism.

All these scratches will disappear from the surface of the protective BodyFence film thanks to the heat of the sun or just rinsing with hot water. Your original paint is preserved ... Forever Young!

ULTRA CLEAR

The BodyFence protective film is a highly transparent film developed to protect the vehicle without altering its appearance.

CHIPPING-RESISTANT

There are a million causes of paint damage from stones and gravel to road debris.

Resist the impact from these every day road hazards with BodyFence.

EASY APPLICATION

Due to its technical properties and performances, this film offers easy application with no creases and no traces.

CONFORMABILITY

Today, the time required to apply self-adhesive films is one of the key factors of a company's profitability. That is why HEXIS have developed an easy-to-apply film. Thanks to the new BodyFence, you will save 30 % on the application time, due to its high conformability and ease of application.

DURABILITY

The HEXIS BodyFence will preserve the original shine of your paint thanks to a reinforced UV protection. The HEXIS BodyFence is guaranteed for 7 years against:

Yellowing
Cracking

SELF-CLEANING

The BodyFence protective film contains an anti-adhesion component. Thus, dust and dirt will adhere much less to the car body. Cleaning will be less frequent and significantly easier.

BODYFENCE The Product

BODYFENCE stone chip protection is a transparent Polyurethane film suitable for the long term protection of vehicle bodies against stone chips, vandalism & scratches. **BODYFENCE** features a self-healing process that regenerates the film in sunlight, the conformability & ease of application can save you 30% in fitting time while the ultra clear finish makes the film invisible.

BODYFENCE 150µm Polyurethane film.

BODYFENCE The Accessories

BEFORE

BEFORE APPLICATION

It is required to clean the substrate using the system 1-2-3 cleaning chemicals, before application:

REMOVER - a powerful cleaning agent to remove tar, grease, resin & old adhesive residues.

PRECLEANER - a powerful universal cleaning agent to remove grease traces, insects & tree sap.

FINAFCLEAN - a mild cleaning agent to use for the preparation of substrates.

Visit HEXIS Online For Up To Date Pricing.

DURING

DURING APPLICATION

For the application and for all finishes, we recommend using two types of application agents:

HEXIS'O - a powerful surface cleaner, mix one part HEXIS'O to 5 parts water.

HEXISGEL - Specially developed for the application of BodyFence.

SPRAY1 - 1.25 Ltr Hozelock pressure liquid sprayer.

SPRAY5 - 5 Ltr Hozelock pressure liquid sprayer.

MARJO (medium) yellow squeegee, 450mm wide, cut to the required angle for an easier application.

BODYBLACK (soft) black squeegee 235mm, for use on concave highly curved surfaces.

BODYYELLOW (medium) yellow squeegee with handle 125mm, for high pressure application.

BODYBLUE (hard) blue squeegee for BODYYELLOW handle 125mm, for high pressure application.

MARVITRE (very hard) whiter squeegee, Teflon coated for a perfect glide over the film during application.

FINISHLINE - Knifeless FINISHLINE fine filament cutting tape, perfect for cutting without a knife.

SAC-1 - Olfa 30° professional knife, perfect for scoring the film before tearing during application.

Visit HEXIS Online For Up To Date Pricing.

AFTER

AFTER APPLICATION

We recommend our cleaning products for an easy everyday clean.

HEXSP - Protech car cleaning shampoo, removes dirt and gives a smooth clean finish.

HEXLW - Protech laser wash for a high end gloss finish.

HEXEM - Protech polish for a high end gloss finish.

WAXPAD - pack of 12 wax polish hand application pads.
